|--|-------|
| Abbe, Prof. Cleveland. (Notes and articles by the Editor.) | |
| Wireless telegraphy (<i>Nature</i>)..... | 156 |
| Lightning rods | 156 |
| A kite and balloon station near Berlin, Germany..... | 156 |
| South African meteorology | 159 |
| Frost work in South Africa (Annual Report, 1898)..... | 159 |
| Prof. Henry Allen Hazen, death of | 160 |
| Gen. A. A. Tillo, death of | 160 |
| Winter killing of fruit trees (J. Warren Smith, H. W. Gilbert)..... | 160 |
| Farmers' bulletins..... | 160 |
| The soil and the crops..... | 160 |
| Errors in school books..... | 160 |
| Fruit protection in Florida (A. Mitchell) | 160 |
| Historical events in meteorology (R. M. Hardinge)..... | 160 |
| Irrigation in winter | 162 |
| The Weather Bureau and commerce on the Great Lakes (C. F. Schneider)..... | 162 |
| Mirage (S. W. Glenn)..... | 163 |
| The high stations of Wyoming..... | 164 |
| New meteorological terms | 164 |
| Winter thunderstorms in Mississippi (H. E. Wilkinson) | 165 |
| Snowfall in the Rocky Mountains..... | 165 |
| The relation of temperature to color (E. A. Evans, S. M. Blandford)..... | 166 |
| Meteorological Congress at Paris, September 10-16, 1900 (circular letter)..... | 166 |
| Meteorology at the Paris Exposition | 166 |
| Lectures in the schools | 166 |
| Long dry spells..... | 166 |
| Lectures at farmers' institutes (E. W. McGann)..... | 166 |
| Climatology of San Diego, Cal. (A. G. McAdie, F. A. Carpenter) | 166 |
| Wind roses for Oklahoma (C. M. Strong)..... | 166 |
| Charles G. Boerner, death of | 166 |
| Artificial rain | 166 |
| The weather maker (E. Gerard) | 166 |
| Climatology of St. Kitts (W. H. Alexander) | 166 |
| Meteorology in Ecuador | 166 |
| Lectures at farmers' institutes (F. P. Chaffee) | 166 |
| A change at Kew Observatory | 166 |
| The London Meteorological Office (<i>Nature</i>) | 166 |
| Maximum pressure of wind | 166 |
| George James Symons, death of | 166 |
| The measurement of radiant heat | 166 |
| The use of the divining rod in the search for water | 166 |
| Tides in the ocean and the atmosphere | 166 |
| Solar spots and terrestrial phenomena | 166 |
| The storms of March, 1888, and 1900 | 166 |
| Frost protection by hot water | 166 |
| The total eclipse of the sun, May 28, 1900 (R. W. Wood) | 166 |
| Stations of the Mexican Telegraph Company | 166 |
| Influence of the wind and of rhythmic gusts on the level of Lake Erie | 166 |
| Long balloon voyages | 166 |
| Wireless telegraphy | 166 |
| Storms of sleet | 166 |
| The cold waves of January and February, 1864 (R. M. Hardinge) | 166 |
| A Black River thaw | 166 |
| Sudden disappearance of ice in the lakes | 166 |
| Benefits and injuries due to storms | 166 |
| Weather Bureau men in universities | 166 |
| Waterspout (Captain Rice) | 166 |
| Objectionable meteorological terms | 166 |
| Danger lines on gages and contour lines on city maps | 166 |
| The legal value of Weather Bureau records (Prof. H. J. Cox) | 166 |
| Sudden temperature changes in Montana | 166 |
| Death of Mr. Cyrus Ellenberger (A. G. McAdie) | 166 |
| Storm waves not tidal waves | 166 |
| An ice storm (Mrs. Britton) | 166 |
| Storm in Yucatan | 166 |
| Local anemometer peculiarities (Jos. Baxendell) | 166 |
| The seasonal rain in Colorado (F. H. Brandenburg) | 166 |
| Freshets in James River, Va. (E. A. Evans) | 166 |
| Phenology in Ohio (J. Warren Smith) | 166 |
| Hail and its methods of formation (E. A. Evans, R. Seyboth) | 166 |
| Studies in raindrops (W. A. Bentley) | 166 |
| The formation of large raindrops | 166 |
| Photography in meteorology | 166 |
| A new meteorological journal | 166 |
| Climatic divisions of Missouri (A. E. Hackett) | 166 |
| The effect of diminished temperature on cooking (R. M. Hardinge) | 166 |
| Sudden temperature changes in Montana (E. J. Glass, C. W. Ling, Prof. A. J. Henry) | 166 |
| Weather forecast cards by rural delivery (J. Warren Smith) | 166 |
| Ice and navigation at St. Michael, Alaska (Lieut. D. H. Jarvis) | 166 |
| Oregon weather and Bering Sea ice (E. A. Beals, Jas. Page) | 166 |
| The Brooklyn Museum of Meteorology | 166 |
| Lectures on meteorology (P. Connor) | 166 |
| Meteorology in the universities (Prof. Wm. H. Brewer) | 166 |
| The Weather Bureau and the universities (Dr. O. L. Fassig) | 166 |
| The climatology of California | 166 |
| Isotherms for a given altitude | 166 |
| Request | 166 |
| Rainfall in Jamaica for 1899 (Maxwell Hall) | 206 |
| Oregon weather and Bering Sea ice (E. A. Beals) | 206 |
| Seasonal forecasts in Colorado (F. H. Brandenburg) | 206 |
| The thunderstorm of May 16 in Idaho | 207 |
| The Hawaiian standard of time (Curtis J. Lyons) | 207 |
| Heavy rainfall in local storms | 208 |
| The June rise of the Missouri and Mississippi rivers | 208 |
| A meteorological library | 208 |
| Monument to Canton | 208 |
| Lectures on meteorology | 208 |
| The drift of the Gulf Stream near Key West, Fla. (W. U. Simons) | 210 |
| Eclipse shadow bands and correlated atmospheric phenomena | 210 |
| Storm warnings on the Oregon coast | 211 |
| Index to the monthly reports of the California section | 211 |
| Cape Nome temperatures (A. G. Blake) | 212 |
| Meteorological cablegrams | 248 |
| A local weather sign | 249 |
| Climatology in California (A. G. McAdie) | 249 |
| Meteorological conditions favorable to spontaneous combustion | 249 |
| Weather Bureau service in Haiti | 250 |
| The laws of atmospheric circulation (Prof. V. Bjerknes) | 250 |
| Prevention of hail by cannonading (Suschnig) | 251 |
| The Weather Bureau in Dominica, W. I. (Dr. H. A. Alford Nichols, Charles E. Ashcraft, Jr.) | 252 |
| The Nile floods and the Indian monsoons ("Cotton," R. J. Allen) | 252 |
| Another use for the kite | 252 |
| A new meteorological journal | 252 |
| Weather cablegrams from the Azores (Fr. Chaves) | 253 |
| Pineapple growing in southern Florida (A. J. Mitchell) | 253 |
| Electric phenomena in the Euphrates Valley (E. Huntington) | 290 |
| Notable lightning (H. E. Heiskell) | 290 |
| The French edition of the Monthly Weather Review | 291 |
| Rafinesque on atmospheric dust | 291 |
| Lightning from a cloudless sky (J. N. Weed) | 292 |
| Weather Bureau station on Turks Island | 293 |
| Wells and storms | 293 |
| The frequency and extent of destructive hail | 293 |
| Atmospheric conditions favorable to cotton spinning (Lee A. Denison) | 294 |
| Aurora in Florida (H. H. Ten Broeck) | 294 |
| Progress in wireless telegraphy (G. E. W.) | 294 |
| Weather Bureau men as instructors | 336 |
| Monthly statement of average weather conditions (E. B. Garriott) | 336 |
